**GROWTH THROUGH NUTRITION ACTIVITY**

Water, Sanitation, and Hygiene

*To improve access to WASH products and services*

**Water Scheme Construction and Rehabilitation**

- Provide safe water for communities by constructing shallow wells fitted with hand or solar pumps, on-spot springs, and gravity springs for multi-village systems.
- Rehabilitate non-functioning shallow wells, boreholes, springs, and piped water systems.

**Capacity Building**

- Establish/reactivate and train WASH committees to ensure upkeep of constructed and rehabilitated sites.
- Train Woreda Water Offices on tender administration, construction quality control, water quality testing, monitoring, and operation and maintenance.
- Train households on multiple use of water for productive purposes.

**Establish Sustainable WASH Businesses to Provide Improved Sanitation**

**IMPORTERS & MANUFACTURERS**

Location: Addis Ababa
Function: Production or import of improved toilet fixtures, water treatment, and hygiene products.

**WHOLESALERS**

Location: Regional and Zonal cities
Function: Sell imported/manufactured products to retailers.

**RETAILERS & SLAB MANUFACTURERS**

Location: Woreda towns
Function: Retailers sell WASH products while slab manufacturers produce improved latrine inputs.

**SALES AGENTS & MASONS**

Location: Kebele
Function: Commissioned to promote WASH products in the community and/or install latrines.

**HOUSEHOLDS**

Location: Community
Function: Gain access to and make demands for WASH products and services.

**HEALTH EXTENSION WORKERS & HEALTH DEVELOPMENT ARMIES**

Location: Kebele
Function: Work on demand creation in the community through Social and Behavioral Change Communications.
